SANKARA
EYE FOUNDATION

SEF has provided the gift of vision to over 12.1 million people in need

SEF is the largest free eye care provider in the world

JOIN THE MISSION TO ERADICATE CURABLE BLINDNESS IN INDIA

Give
the Gift of
Vision...
Give Life...

INDIA'S BLINDNESS CHALLENGE

- World's largest blind population lives in India
- 12M people in India are totally blind
- 80% of the blindness can be easily cured
- Most of them cannot afford even basic eye care services.

ABOUT SANKARA EYE FOUNDATION (SEF)

SEF, USA, founded in 1998 in San Jose, California and SEF, India, founded in 1977 in Coimbatore, Tamil Nadu, have been working together towards eradicating curable blindness in India for over two decades by providing free high quality eye care to those in need through super specialty eye care hospitals.

Starting with only one hospital performing about 8,000 free eye surgeries in 1998, today, SEF, USA has grown to 11 Sankara Eye hospitals and 10 partner hospitals performing over 215,000 surgeries per year.

VISION 2030 INITIATIVE

A Million Free Eye Surgeries Per Year by 2030!

To arrest the growth of blindness in India, SEF, USA has set a goal to perform one million free eye surgeries annually by the year 2030. This will be achieved through expanding the capacity of our Sankara Eye Hospitals and partnering with other eligible eye care hospitals as well as obtaining support from like-minded organizations, such as IIT-IIT (IITians for Influencing India's Transformation).

Currently, SEF, USA is expanding capacity at Guntur and Kanpur Hospitals and expanding partner hospital, H.V. Desai in Pune and Solapur. New hospitals are coming up in Hyderabad, Varanasi (UP) and with our partner, Akhand Jyoti Eye Hospital in Bihar. Fundraising for these hospitals is in full swing.

GIFT OF VISION:

The Rural Outreach Program

Sankara takes eye care to the doorsteps of rural India by conducting eye camps in villages within 300 km radius around the base hospital. At the camps, the patients are examined and screened; those needing surgery are brought back to the base hospital for surgery. Free transportation, food and lodging are provided for patients during hospitalization. They also receive systematic follow-up, ensuring effective post-operative care.

SELF-SUFFICIENCY MODEL:

The SEF hospitals work on 80:20 model where 20% of the paid surgeries fund 80% of the free surgeries. This model ensures that hospitals fund themselves once the self-sufficiency is reached.

IMPACT ON COMMUNITY

Fostering Economic Independence:

Putting a portion of the rural poor back into the work force by restoring their vision.

Rescuing the Future:

Giving young children a productive future for themselves as well as society.

Empowering Women:

Recruiting and training young women from under privileged families as Vision Care Technicians for staffing our base hospital and giving them independence to support themselves and their families.

PREVENTATIVE CARE

Customized preventative programs have been developed to screen children of various age groups.

Rainbow is an ongoing screening program for children in government schools to identify and treat undetected visual defects for free.

Our **Maithri** and **Swagatham** programs serve pre-schoolers and newborn children.

WHY SANKARA EYE FOUNDATION?

- 2.2 million free eye surgeries and counting
- Top 4-star rating from Charity Navigator
- 44 years of experience
- 11 state-of-the-art SEF hospitals and 8 partner hospitals across India
- "Best in the field" doctors and paramedics
- Over 98% success rate for cataract surgeries

VOLUNTEER

- Become an ambassador and raise awareness
- Develop partnerships with other organizations
- Help organize and participate in events
